

Parish Mission *Available in 2009*

Today there is a need for a greater understanding and appreciation of the basic teachings of John Paul II and our Catholic theology regarding the human person.

The Daughters of St. Paul's Evangelization Team wish to offer for your parish a faith formation and spiritually enriched presentation on the foundational themes of Theology of the Body entitled "***Created in the Image of God***" – a multimedia presentation / workshop for parish and group settings. A workshop that is both interactive as well as spiritually enriching.

The program is ***not*** intended to be an academic presentation. It ***is*** intended to be an integrated and interactive approach to the most fundamental aspects of the Theology of the Body, from which deeper study may then take place.

This program:

- Will deepen the basic teachings of John Paul II on the human person with emphasis on Scriptural reflections (Genesis and the New Testament) and reference to fundamental themes of the Theology of the Body.
- Incorporates spirituality in order to achieve an integrated view of the human person in relationship to God.

Themes covered:

- Goodness and the dignity of the human person in relationship to God's love for each individual
- Self-esteem, respect
- Trinity as love, model of community
- Integration of life
- Universal call to holiness
- Media and the dignity of the human person; interpersonal relationships

If you are interested in scheduling this program,

"Created in the Image of God"
